

The Humane Society of Missouri

offers elementary school students a unique opportunity to join a fun, animal-friendly, after-school club with a **STRONG SERVICE LEARNING EMPHASIS!** Sign up your school, and we bring the club to you!

Club HOPE is a year-long celebration of animals with the students in St. Louis area elementary schools. Our goal is that schools and communities will be kinder, more compassionate places to live as a result of Club HOPE.

Bring Club HOPE to your school!

What is Club HOPE?

- A place of hope
- A place of belonging
- A place to learn
- A place to express your ideas
- A place to develop values
- A place to make a difference for the voiceless (the animals)
- A place to grow friendships
- A place to GROW intellectually, emotionally and personally
- A place to develop a lifelong passion for animals and our world

Based on the Caring School Community National Character Education Model

The curricula is based on the Caring School Community principles and focuses on animal-welfare education. Each club meets once a month at your school for 90 minutes to explore animal-related topics through buddy time, discussion, group activities and home-side activities. Students will have fun learning about animals and how to be more compassionate, responsible and caring people.

Become a Club HOPE Leader

The dedicated Club HOPE teachers are specially trained volunteer humane educators. If you are an elementary teacher or parent and are passionate about animals, then YOU have what it takes to be a Club HOPE Leader!

As Club HOPE leader, you attend a three-hour workshop and receive a manual with all of the lesson plans and activities. You then facilitate the club meetings and serve as a liaison between the Humane Society of Missouri and your school.

Working *hand-in-paw* toward a kinder community for children and animals.
